

ACETYLATED WOOD CLADDING

A solution to many problems associated with timber

A RIBA-REGISTERED CPD PRESENTATION

Accsys offers a CPD presentation on the subject of acetylated wood cladding. Acetylated wood is sold under the brand name Accoya®.

The presentation includes:

- The specification considerations for timber cladding and the potential problems
- The manufacturing process and the features of Acetylated wood
- How Acetylated wood can reduce the risk of problems with timber cladding and increase design scope
- Real-life scenarios and case studies where Acetylated wood has been chosen for its superior performance

More information

This presentation is offered throughout the UK. To book a presentation, please contact:
