Stability & Durability
Accoya® wood offers unsurpassed dimension stability and durability. Approved for use in UC3A, UC3B & UC4A categories per AWP A U1, this includes exterior above ground AND ground contact.

Processing
Processing does not affect the unique properties of Accoya® wood, as it is modified throughout and not leachable. It is easy to process and can be compared to profiling a soft wood species. No special tools are required for cross cutting, ripping, planing, routing and drilling. Sanding before finishing is rarely required.
